Mark Carter
MMG Mining
3655 Lupin Way
St. George, UT 84790

RE: ML 46614-Clay

Dear Mr. Carter:

The Trust Lands Administration is aware of recent mining activity upon the lands within the above numbered lease. Lessee has exceeded the one-acre limit originally approved for disturbance by the Lessor and has not filed an updated mining notification or plan of operations.

Within the next thirty (30) days please submit a detailed mining map at a scale of not more than 50 feet to the inch, as required by Article XII of the lease, showing the extent all cuts, pits, trenches and other mining disturbances upon the leased lands. Also please include a written explanation of reclamation that may have been performed and a description of all mining planned for the next calendar year upon the leased lands. This information may assist the Trust Lands Administration in evaluating the present bonding requirement for the lease.

Please contact me if you have any questions in this matter.

Sincerely,

John T. Blake
Mineral Resources Specialist
